

Stephen Rapport

July 1970
MVCDS

After a year marked by death, destruction and violence, it is time to look back in search of times filled with happiness, beauty, creativity, and human achievement. The 1970 Weathervane has tried to capture these moments at Maumee Valley with pictures rather than words.

This book is dedicated to Peace.

Fiberglas cord is making tracks.

These tough glass fibers from Owens-Corning add safety and performance to tires on most 1970 Detroit cars. They form the fabric that protects Apollo space suits from temperature and fire.

And Fiberglas* reinforcements put strength and durability into a majority of pleasure-boat hulls built today. In fact, it's estimated there are more than 33,000 ways Fiberglas materials can profitably replace metals, wood or cloth. They're already in many of these uses right now, moving fast into others. Your career could make tracks at Owens-Corning too. There are hundreds of opportunities. For information, write us: Owens-Corning Fiberglas Corporation, Fiberglas Tower, Toledo, Ohio 43601.

Students of Toledo Opposing Pollution

YOU CAN HELP

1 BECOME INFORMED–

Learn more about pollution, its causes and effects. Material is available from Clearwater, Inc., and the Toledo Pollution Control Agency.

2 WORK WITH LOCAL AGENCIES–

Clearwater, Inc., an independent, non-profit organization in this area, is concerned with pollution. Learn about it. Check to make sure it's doing all it can. Support it with money, ideas and constructive criticism.

3 SPEAK OUT AGAINST POLLUTION–

4 REPORT VIOLATIONS–

Each citizen has to be involved. Watch for water pollution violations, a change in your drinking water or polluted streams and other bodies of water. Report them to the Toledo Pollution Control Agency.

5 MOST OF ALL, DON'T BE A POLLUTER YOURSELF!
